

# *CENSUS INCOME PREDICTION*

## *Wireframe Documentation*

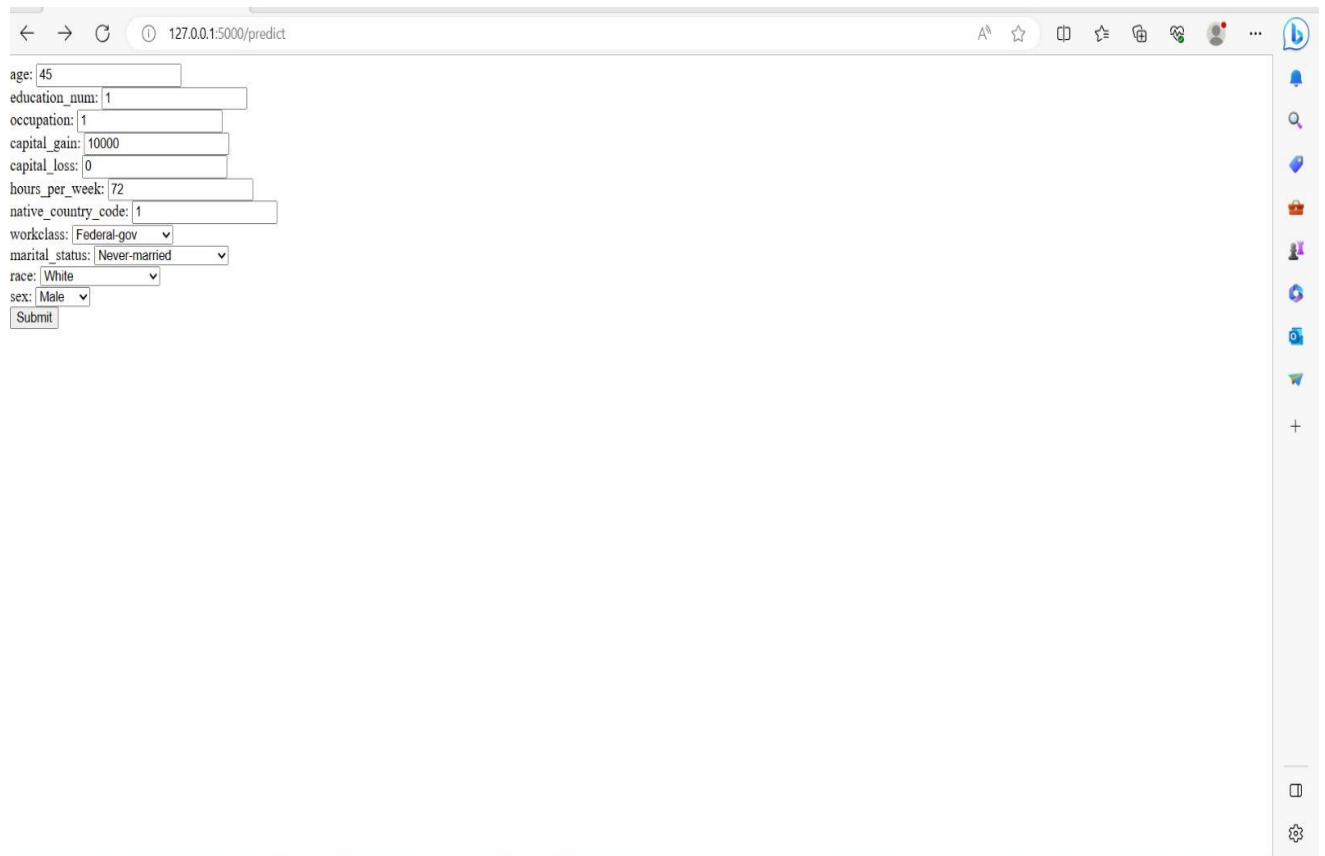

# Homepage

We have divided census income prediction homepage into Sections: -

1. First thing anyone will see is a pop-up window on Homepage which will ask to click link for census income prediction.

2. The User will encounter with another pop-up window asking for User details.

A screenshot of a web browser window displaying a form for user details. The browser's address bar shows the URL "127.0.0.1:5000/predict". The form is located on the left side of the page and contains the following fields and controls:

- age: 45
- education\_num: 1
- occupation: 1
- capital\_gain: 10000
- capital\_loss: 0
- hours\_per\_week: 72
- native\_country\_code: 1
- workclass: Federal-gov (dropdown menu)
- marital\_status: Never-married (dropdown menu)
- race: White (dropdown menu)
- sex: Male (dropdown menu)
- Submit button

The right side of the browser window shows a sidebar with various icons, including a search icon, a home icon, a shopping cart icon, a user profile icon, and a settings icon.

### 3. Final prediction.
